SUPPORT OUR TROOPS

May 2009

Dear friends:

A non-profit organization such as Family and Friends for Freedom Fund looks to companies for donations to help our wounded military HEROES and their families. Your generosity makes a difference in their lives, especially knowing they are not alone and someone cares.

In this economic downturn, we are all going through financial hardships and struggles. Every one of us has been affected. The men and women of our armed services are no different with the exception of still being on the front lines sacrificing themselves to protect us.

The government has proposed a stimulus package to jump-start our economy. Family and Friends is also proposing a stimulus package. We are asking you to stimulate your heart by making a donation.

Any and all amounts would be greatly welcome.

They gave for us, now it's our turn to give to them

Thank you for your support.
